

Project Report and Presentation

Final Report

- Self-contained and of max. 20 A4 pages
- Difficulties that you have encountered
- Different methods that you have tried
- Justification of your choices
- What are the questions that are answered by your visualization?
- Any new insights?
- Anything you wanted to do but haven't? Why?
- Any limitations to the existing tool?

Final Report

- Due on **Apr 9**
- What to submit?
 - A single zipped file containing:
 - An **index.htm** file that serves as a starting page and a readme document to access all the submitted files (e.g., instructions to try out and assess your work)
 - The final report in PDF format
 - Other results in any format that you think is appropriate. We are flexible and so be creative in the presentation. Video clips and online demos are some of the options.

Presentation

- After the project break
- No class on Mar 31 and Apr 7
- Presentations on **Apr 13, 14, 20, 21**
 - 7pm-10pm in CYC Lecture Theatre C
- Must attend at least 3 out of 4 days of presentation
- TA will assign the schedule next week
- Notify TA if you are not available in any date due to time clash to class or work schedule
